SIRWAN GAZNAYI
CO-FOUNDER / ARCHITECT

My passion for architecture could only be described in love terms. It's little exaggeration, if any, to say I was born with this passion. Since I was a little child, any architectural item worthy of the name gripped my imagination, stimulated me to apply my pen and ruler to sketch out all.

HARDI BARZJNI
CO-FOUNDER / ARCHITECT

Architecture has always felt like a calling rather than just an interest. It wouldn't be far from the truth to say I was born with this passion. Ever since I can remember, any remarkable piece of architecture would spark my imagination and drive me to sketch it out with pen and ruler in hand.
